Patna , Bihar

SUMMARY

Eager to leverage web development experience and technical skills, particularly in React.js and Node.js, to contribute meaningfully to advancing eco-friendly development initiatives. Passionate about crafting efficient applications, attention to detail in personal projects, and optimizing user experience. Demonstrates a proactive approach in API development and a proven track record in coding competitions. Committed to supporting sustainability efforts through innovative programming solutions and seamless application integration.

EXPERIENCE

Developer

Personal Project

📅 10/2024 01/1970 📍 Bhopal, MP

Experience in developing web applications and RESTful APIs

- Designed and developed a responsive yoga website to provide information about yoga poses, classes, and benefits
- Created an interactive UI with modern design elements for an engaging user experience
- Implemented routing using React Router for seamless navigation across pages
- Integrated responsive design techniques to ensure compatibility across devices
- Developed a RESTful API using Node.js and Express.js to handle raw JSON data
- Reduced server errors by 80% by implementing an enhanced debugging process.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Vellore Institute of Technology

📅 09/2022 01/1970 📍 Bhopal, MP

12th CBSE Board

Shivam Convent School

📅 06/2019 05/2021 📍 patna, Bihar

10th CBSE Board

Shivam Convent School

📅 04/2018 05/2019 📍 Patna, Bihar

LANGUAGES

English

Hindi
Native

KEY ACHIEVEMENTS

Leet Code Global Rank

Achieved a coding rank of 793,007 on Leet Code after completing over 150 questions

Aarambh Winner

Winner of the Aarambh College Cricket Tournament

SKILLS

Language & Frameworks

C/C **Java** **Python** **HTML**

CSS **React & Angular** **Node.js**

Express.js

Databases & Compiler

MySQL **MongoDB** **VSCode**

PROJECTS

Weather Website

📅 07/2024 09/2024 📍 Bhopal, MP

Weather website to display latest weather reports

- Engineered a website to fetch the latest weather reports using APIs
- Implemented responsive design to ensure optimal user experience across devices
- Integrated real-time weather data from multiple sources for accurate information
- Conducted user testing sessions to gather feedback and iterate on design
- Optimized website performance, resulting in faster load times

INTERESTS

Hobbies

Playing football, playing cricket, and listening to music
